3. ITEMS FOR INFORMATION/ACTION

a. RFQ For Fiscal Agent there was discussion. Everyone likes the clarity that Jeannie provides to the group. This is something that they felt had lacked in previous years and it brought comfort to them. Raman spoke on from the Fresno County side that Jeannie is working too much for SJVLS and it has been brought to his attention from other staff as well. It was stated that SJVLS Fiscal Agent is Fresno and there was discussion on what that meant. The group would like to bring in a consultant to review things and get another point of view. It was decided that keeping Jeannie working at the capacity she is doing is not in the best interest for Fresno County and could lead to potential burnout. Raman and Alberto discussed that the System Agreement from 1979 and this would need to be reviewed and updated. In the budget reserves for 2008-2009 there was a position added by Karen Bosch Cobb which could be a Librarian. Raman and Alberto offered to transition the duties that Jeannie and her group are now doing. This transition would be a 6-9-month process. The council agreed that this would better serve everyone. Alberto and Raman have lawyer in place for any help and proposed the following. 1.) Complete separation. 2.) SJVLS opens own bank account. 3.) Fresno County not Library becomes Fiscal Agent. Other County Agencies have this as well. 6.) Mark proposed switch employees. The Council would like to review the RFQ's and return in September, in meantime Raman and Alberto will start moving forward to start the transition so that Jeannie has less duties overall.

b. JPA would be a good step before RFQ for Fiscal Agent is taken care of. Fresno to come back on Monday the 19th for additional options, including fiscal agent RFP. Alberto will review along with Heidi, Janet and Darla regarding RFP for E-Rate consultant.

c. Systems agreement will be brought back in September as well.

SAN JOAQUIN VALLEY LIBRARY SYSTEM REQUEST FOR PROPOSAL

NUMBER SJVLS 2019-002

Telecommunications & Erate Consultant

Approval for selection of:

- 1. Vendor EdTechnologyFunds.
- 2. Execute contract with terms effective upon execution to be signed by SJVLS Admin Council Chair.

This document is being presented to seek approval the Administrative Council's authorization for SJVLS Staff to enter into a contract with EdTechnologyFunds for a period of two years not to exceed \$60,000 per year, with two optional years at the same cost.

Background

With the Admin Council's approval, the SJVLS staff published RFP SJVLS-20-002 in July 2019. Four proposals were presented by the following organizations:

- Learningtech.org
- CSM
- EdTechnologyFunds
- Infinity Communications & Consulting, Inc.

The RFP evaluation process was facilitated by Alberto Martinez (SJVLS Administrative Librarian). The evaluators of the RFP were Janet Chase-Williams (Director- Mariposa County Library), Darla Waeger (Director- Tulare County), Heid (Director-Tulare Public Library) and Mary Ellen Tyckoson (SJVLS Library Program Manager). Each member read the responses independently and ranked according the matrix attached below.

These results were reviewed with the SJVLS Senior Networking Engineer since they would work extensively with the vendor. This process found EdTechnologyFunds to be the highest ranked and most favorable vendor given the RFP that was published. The bid by EdTechnologyFunds showed extensive experience with Public Libraries & Consortia. Among other factors, the base price of the proposal included service to the 20 sites for Erate, additional consulting for all other 110 sites within the consortia for services beyond Erate and was economically viable.

If the apparent low bidder is not a local vendor, any local vendor who submitted a bid which was within five percent (5%) of the lowest responsive bid as determined by the purchasing agent shall have the option of submitting a new bid within forty-eight hours (not including weekends and holidays) of System's delivery of notification. Such new bids must be in an amount less than or equal to the lowest responsive bid as

If the General Requirements of this RFQ state that they are applicable, the provisions of the System Local Vendor Preference shall take priority over this paragraph.

9. PATENT INDEMNITY:

The vendor shall hold the System, its officers, agents and employees, harmless from liability of any nature or kind, including costs and expenses, for infringement or use of any copyrighted or uncopyrighted composition, secret process, patented or unpatented invention, article or appliance furnished or used in connection with this bid.

In the absence of such notification, System shall have the right to dispose of the samples in whatever manner it deems appropriate.

11. RIGHTS AND REMEDIES OF SYSTEM FOR DEFAULT:

- A) In case of default by vendor, the System may procure the articles or service from another source and may recover the cost difference and related expenses occasioned thereby from any unpaid balance due the vendor or by proceeding against performance bond of the vendor, if any, or by suit against the vendor. The prices paid by the System shall be considered the prevailing market price at the time such purchase is made.
- B) Articles or services, which upon delivery inspection do not meet specifications, will be rejected and the vendor will be considered in default. Vendor shall reimburse System for expenses related to delivery of non-specified goods or services.

OVERVIEW

1. Purpose:

The San Joaquin Valley Library System (SJVLS), a library Consortia headquartered in Fresno, California, seeks proposals from qualified consultants with experience working with public library consortia to review and assess our organizational structure, operations, as well as our service delivery policies and practices so that the organization may improve its operations, update current guiding documentation, and prepare the organization to become a fully independent agency in the future.

The consultant will recommend practical, achievable and realistic revisions and adjustments to the organizational structure of SJVLS that will detail the following:

- Create a pathway that will allow SJVLS to assume greater responsibility in carrying out the tasks and objectives of the organization with the goal of an autonomous agency.
- Recommend modification to the JPA to provide flexibility, efficiency and accountability in all aspects of service.
- Outline roles, responsibilities and authority of SJVLS staff & member libraries.
- Eliminate duplication and overlap of responsibilities within the organization.
- Identify best course of action for the provision of services be it by SJVLS staff, subcontracting external service providers, or through service agreements with member libraries.
- Improve our delivery time and quality of services.

2. Background

SJVLS is a library consortium established in 1979 under the California Library Services Act by the public library systems of Fresno, Kern, Kings, Madera, Merced, Mariposa, and Tulare Counties, and the city/district libraries of Coalinga-Huron, Porterville, and Tulare. In all, SJVLS represents 10 library jurisdictions and 110 individual library locations including large urban, medium city/suburban, and small, isolated rural libraries. The consortium was established with the intent of partnering to coordinate activities, share resources, and exchange expertise. This sharing of resources and collaborating with shared goals have enabled the member library to deliver higher quality services than they would be able to deliver on their own.

The Fresno County Public Library was the leader in establishing the Joint Powers Agreement and is designated as the fiscal agent in said agreement. Until recent years, the Fresno County Librarian also served as the Administrative Librarian for SJVLS. SJVLS staff members have been employees of Fresno County since its inception and Fresno County's Central Library houses SJVLS offices and the System's data center. In addition to the dedicated SJVLS staff, significant financial and administrative duties are carried out by Fresno County Library. Many of these activities have been financed through reimbursements from SJVLS funds. Nevertheless, the organizational model and its process have been determined to be unsustainable due to the increasing complexity of services coupled with changes in distribution of costs, and the time required to carry out the fiscal and administrative duties. As such, SJVLS seeks to create a clearly defined long-term strategy with specific milestones that will allow help it define a new

organizational model so that it may become a self-sustaining and efficient agency with enough resources, infrastructure and staff to operate independently.

We anticipate that the contracted vendor will need to work in tandem with the organizations' legal department to draft and update new legal documents so that the organization to may implement the necessary modifications in order to achieve the outlined goals of this project.

Each proposal submitted is Public record and is therefore subject to inspection by the public per Section 6253 of the California Government Code. This section states that "every citizen has a right to inspect any public record".

The System will not exclude any proposal or portion of a proposal from treatment as a public record except in the instance that it is submitted as a trade secret as defined by the California Government Code. Information identified by bidder as "trade secret" will be reviewed by San Joaquin Valley Library System's legal counsel to determine conformance or non-conformance to this definition. Examples of material not considered to be trade secrets are pricing, cover letter, promotional materials, etc. Such material should be submitted in a separate binder not marked "Trade Secret".

INFORMATION THAT IS IDENTIFIED AS TRADE SECRET AND CONFORMS TO THE ABOVE DEFINITION WILL NOT BECOME PUBLIC RECORD. SYSTEM WILL SAFEGUARD THIS INFORMATION IN AN APPROPRIATE MANNER.

Re: Replacing Fresno County as fiscal services agent for JPA

INTRODUCTION

You have requested our opinion regarding the ability of your joint powers agency to contract with a third party to become the JPA's new fiscal agent, replacing Fresno County as the fiscal agent. For the reasons indicated below, in my opinion replacing Fresno County as fiscal agent will require that your founding agreement be amended.

DISCUSSION

A. Facts and Assumptions. The San Joaquin Valley Library System ("SJVLS") is an entity formed by various cities and counties in and adjacent to the San Joaquin Valley by agreement bearing the date November 20, 1979 ("the Agreement"). The Agreement describes the entity thereby created as a "cooperative library system formed pursuant to Section 18740" of the Education Code, part of the Library Services Act ("Act"). Section 18740 describes the types of cooperative library systems which are eligible for funds available under the Act. Neither the statute, nor the Agreement, refer to the California Joint Powers law, Government Code section 6500 et seq. ("JPA statute") as providing a procedural basis to form this or other library services entities. The Agreement, however, does contain at least some of the substantive provisions the JPA statute requires, including that a fiscal agent be explicitly identified. (Government Code §6505.5) My own experience, and my conversations with the State Librarian, indicate that most library systems qualifying for funding under the Act are formed as joint powers agencies. If for some reason the Agreement was ever tested in court, I believe the court would interpret it as being controlled by the JPA statute. I therefore adopt that approach in interpreting it for the purposes of providing this opinion.

B. <u>Analysis</u>. A joint powers agreement, considered a "public contract", will be interpreted according to the same rules governing the interpretation of contracts between private parties. (Civil Code §1635) Those rules include that unambiguous language creating an obligation on a party which is not illegal, will be enforced. (Civil Code §§1638, 1639, 1643, 1644) Section 11 of the Agreement provides:

"11. <u>Administration of the System</u>. Subject to the supervision, policies and decisions of the Administrative Council, the System shall be administered by the County of Fresno through its agent the Fresno County Free Library (hereinafter "FCFL"). In addition to all other administrative responsibilities, FCFL shall prepare and submit applications for system grants upon the direction and with the approval of the Administrative Council.

Fresno County is hereby designated fiscal agent for the System. Fresno County shall receive all funds accruing to the System, hold such monies in trust for the System, and pay and distribute such monies to the parties or contractors providing goods and services in accordance with the System's budget. However, Fresno County shall not be required to make any payment on behalf of the System for which there are insufficient funds in the System's account. In the administration of its duties hereunder, Fresno County shall not be required to incur any expense for which funds have not been provided in the System's budget." (emphasis added)

Section 11 of the Agreement is not ambiguous. Designating a party to the JPA agreement to be its fiscal agent is not illegal. In fact, designation of a fiscal agent is required where the JPA agreement creates a separate entity. (Government Code §6505.5) Repeated references, in the Agreement, to "System" does suggest an intent that the Agreement creates a separate entity distinct from the parties to the contract. I conclude that Section 11 is binding on the System and the parties to the Agreement. This means that the System must retain Fresno County as its fiscal agent unless and until the Agreement is terminated, or Section 11 is modified by amendment to allow use of a third party.

Termination of the Agreement can be accomplished, unilaterally, by Fresno County's withdrawal. (Agreement, section 13) Otherwise, termination of the Agreement requires a majority vote of the System's members. (Id.) Termination would trigger System obligations regarding satisfaction of System liabilities and return of System assets to its members in proportion to their historical contributions. (Id.) If the goal here is to keep the System alive, termination does not seem to be the most prudent route to obtaining authority to use a third party fiscal agent.

The more prudent option would seem to be amending the Agreement to eliminate Fresno County's role as designated fiscal agent. Unfortunately, the Agreement is silent regarding the *process* for amending. The JPA statute also contains no procedure for amendments, and no provision requiring agreement by all, or only a percentage of, members to accomplish an amendment This lack of contract or statutory authority creates several issues, primarily (1) whether the consent of all or a lesser percentage of members is necessary to accomplish amendment; and (2) whether consent can be obtained by vote of members at a Council meeting, or requires passage by the separate governing boards and/or councils of each member. Article V of the System Bylaws, apparently adopted March 2, 2018, authorizes amendment to the Bylaws upon two-thirds majority vote. This, however, does not answer the question of whether the same percentage is sufficient to accomplish amendment of the Agreement. [footnote 1]

[Text of footnote 1: On the other hand, and as noted, section 13 of the Agreement requires only a majority vote of the members to terminate the entire System. One might ask why unanimity or any greater percentage of members should be required to accomplish a mere amendment.]

Under these circumstances, probably the safest course is to assume that unanimous consent of the membership is required. Setting the bar at two-thirds, or a majority, might expose the amendment to legal challenge by an unhappy member.

On the other hand, I see much less risk in having the members express their consent, or lack thereof, at a regular or special meeting of the Administrative Council. The Agreement requires all members to have a representative on the Council. (Agreement, section 3) By prior communications the System could insure that each member is adequately appraised of the proposed amendment, with sufficient advance notice to allow each member representative to obtain direction from her governing board/council.

CONCLUSION

Switching fiscal agents will require the System to amend section 11 of its Agreement. If the System is considering an amendment to section 11, there are other provisions, required by the JPA statute, which need to be added and/or updated in the Agreement as well. Thus, putting a comprehensively amended Agreement before the members, rather than just an amendment to section 11, may be worth considering.

Report of Library Program Manager to
SJVLS Administrative Council for
September 13, 2019 meeting

BlueCloud Mobile continues to see steady usage. Around 1,100 new devices download the app each month and the app is launched around a 1,000 times per day. Around 8,000 requests are placed per month and over 7,000 renewals are completed. Wymer has added a "smart" banner to Enterprise to alerts those accessing it via a mobile device to the availability of the app with a link to the appropriate store for their device.

A new version of Enterprise has been released with added support for responsive design (resizing/arranging the screen to fit the device). We are studying the changes and will schedule an upgrade soon.

A patched client-only upgrade for Horizon is available. Among other things, that patched client seems to have fixed our problems with auto-renewal. Having now run a successful test with Porterville, we'll slowly add other locations while watching the behavior to make sure that all of the renewal rules are being followed.

Boyer has made significant progress on the new sjyls.org website with a public launch imminent.

Numbers from Horizon for state reports are available on the system shares/Administration/Reports/Member State Reports/2018-2109/ folder. The key files are counts_2019_7_1.xlsx and circ_stats_2018_19.xlsx. Each file has a first tab that identifies other tabs to use for the various sections of the state report. Spreadsheets with HIP and Enterprise usage statistics are also available in the folders along with other statistics for the year.

Planning for the shutdown of HIP for public searching on January 2nd continues. The biggest problem is users with huge My Lists on HIP and who have previously logged in to Enterprise. We can work with SirsiDynix to do a one-time reset of selected borrowers to allow an Enterprise login to "slurp" over HIP My Lists for that user. Chris is working on a web form for borrowers to request the reset, which will probably take place in early December.

The Automation Committee has to subgroups looking at SMS notice options and self registration options.

San Joaquin Valley Library System
Information Technology Plan
2019-2022

Introduction

Every three years The Senior Network Engineer of SJVLS will carry out the process of reviewing and updating the San Joaquin Valley Library System's networking & connectivity infrastructure plan.

The plan has the following purposes:

- Assure that the IT Infrastructure provide through SJVLS membership meets the current & potential needs of the consortia members.
- Help with annual work plans for SJVLS IT staff.
- Aid in developing the annual SJVLS budget.

The plan is part of the greater SJVLS Strategic Planning process and is carried out by doing the following:

- Surveying the present state of the art in library network.
- Integrating input from SJVLS' functional committees and its' member library representatives.
- Identifying and carrying out IT-Related objectives in the SJVLS strategic plan.
- Make recommendations for future SJVLS Planning

The plan is reviewed & approved by the SJVLS Administrative Council and progress reporting is done on a Biannual basis in April & October.

Planning of issues regarding the ILS is carried out through dialogue with the consortia members, ILS administrator & the Automation Committee and is limited to providing the required infrastructure to carry out the goals & objective of the ILS which will be planned separately.

Guiding Principles of SJVLS IT

Technology Planning for SJVLS is oriented around the following principles:

SJVLS IT will adapt to the needs of member libraries

Public Libraries seek to promote access, confidentiality/privacy, democracy, diversity, education and lifelong learning, intellectual freedom, preservation of information, and fostering interaction within local community members.

SJVLS' IT infrastructure should help member libraries to implement technology in a manner that allows them to carry out these objectives. In this way, the architecture can be accepted on its own merits rather than in a prescriptive manner.

SJVLS IT helps to foster innovation.

Public Libraries are constantly reinventing themselves to keep up with the needs of their communities. For this reason, SJVLS IT infrastructure must be built in a way that does supports rather than constricts creativity, elegance, or unique needs.

SJVLS IT is sustainable.

Public libraries require a dependable infrastructure to provide the best possible service at all times. For this reason, SJVLS networking infrastructure must guarantee peak optimal performance throughout the course of time.

SJVLS IT is cost effective

Sadly, Public Libraries are often underfunded. Because of this, the acquisitions that libraries make should provide a greater worth for the resources utilized. IT infrastructure should then be structured in a manner that maximizes its worth.

SJVLS IT is standards-based

Because of its inherent collaborative nature, public libraries have traditionally created, promoted and utilized various standards for their operations. This same spirit should be adopted in IT decision making. As such, SJVLS IT Staff aims to utilize proven technologies that lessen our need to build specific solutions that result in creating something that already exists. In this way we harness the power of a global community of professionals utilizing shared solutions.

Technological Aspects of SJVLS Strategic Plan

SJVLS is currently operating under the FY 2018-19 through FY 2020-21 Strategic Plan. The following items of the strategic plan fall under the domain of the IT Infrastructure staff

- Schedule a minimum of 3 virtual sessions to troubleshoot issues and concerns
- Visits each HQ Annually.
- Provide advance notice to directors regarding mandatory tech meetings.
- ERC shares a minimum of one report per year on new recommended technology to Admin Council.
- Establish a set of guiding rules for a tech reserve contingency and set a minimum contribution for unexpected needs.
- Hold annual discussion of technology needs in Fall Summit.
- Develop communication plan between Directors and SJVLS staff for discussion of fiscal and staff workload impact of technology projects.
- Develop disaster recovery plan.

Current Technology Overview

The following services are provided:

- Maintenance of Central Network
- Updating & development of System-wide Infrastructure
- Ordering of equipment
- Overseeing E-Rate financing for development of the network
- Technical Support
- Inventory Management

SJVLS network services include:

- Internet content filtering,
- Web-server development
- Antivirus protection
- Email
- Spam blocking
- Ticketing System
- PC auditing
- Inventory management.
- Cooperative implementation of new technologies.

State of Infrastructure & Objectives

Telecommunications Network: All 110-member library locations are connected to the central network via dedicated circuits, predominately Metro Ethernet using fiber optic connections ranging from 10 Mbps, 100Mbps, and 1 Gbps but with some locations on legacy circuits at 1.5 Mbps. The headquarters for each jurisdiction act as the hub sites for their respective branches. Bandwidth usage is monitored via licensed PRTG software to identify locations at or near their bandwidth limits. Internet access is centralized at the headquarters as well, with bandwidth upgraded to 1 Gbps. A Fortigate firewall, managed by the System is at each HQ. See Appendix A for bandwidth by location.

Internet content filtering and firewalling is provided through Fortigate Firewall appliances located at each HQ. These appliances are managed by System staff based on the requirements of each library jurisdiction. This hardware is sustained through an annual subscription for updates and maintenance.

Installation of building data cabling is coordinated through the System Office but is the responsibility of the member library. The current system standard is Cat6 for all new construction, remodel or renovation projects. Installation of wireless service for public access have occurred in several locations. However, current bandwidth limitations have precluded expansion of this service in all areas.

Telecommunications Network Objective 1

In 2010 The Federal Communications Commission (FCC) published "Connecting America: The National Broadband Plan". As part of this plan, the FCC sought to guarantee 1gbps for every library in America. In order for the SJVLS member libraries to accomplish this goal, the following library headquarters will require router upgrades to 10gbps to be able to distribute increased bandwidth to branches.

- o Fresno
- o Kern
- Merced
- Tulare County
- o Kings

Telecommunications Network Objective 2

SJVLS IT Staff recommend building redundancy into the network by creating a second site in the SJVLS member region. This will guarantee continual service in the case of an outage at the system office headquarters in Fresno California. Ideally this would be Tulare Public Library given the available infrastructure.

Telecommunications Network Objective 3

Implement contingency plan for the Server Room in Fresno in case of power outage to that will guarantee that backup power is provided to Cooling unit & Server Runnings.

Make necessary modifications to the server room.

Purchase service plan.

Computer Network: The System runs a Windows 2012 active directory network; all computers are joined to the domain; and all staff members have user accounts. File servers support users for system-

wide file sharing and sharing within the library jurisdiction. Larger system members such as Kern, Fresno, and Tulare County have file servers dedicated to their jurisdiction. Some members operate intranets within their jurisdictions.

Applications Support

The System provides a wide array of technology services to its members.

Web site hosting

The System operates its own web server and efforts are limited to maintaining www.sjvls.org and the SJVLS Digital Collections (Omeka).

E-mail:

Microsoft Office 365 provides e-mail services to all member libraries. Current configuration supports mail groups for committees and communication to staff at all branch libraries.

Library Automation

A shared ILS, SirsiDynix Horizon, supports library functions such as cataloging, circulation, acquisitions, and serials at all locations. The ILS infrastructure is mixture of locally-hosted & Cloud-based systems. Any modifications relating to the ILS will be handled through the ILS administrator or through the automation committee.

Databases

The System coordinates purchases, and subscriptions of commercial databases & electronic Resources.

PC Support—Hardware

Most members purchase PCs and peripherals through the System in order to take advantage of volume discounts and to ensure that equipment meets System standards. The System has adopted a five-year replacement cycle for CPUs. Peripherals are purchased as required.

PC Support—Hardware Objective:

As part of the Tech Plan, the NSE will establish & carry out a periodic review of its acquisition strategy to guarantee that its purchasing procedure is the most-cost effective given the requirements & standards set by SJVLS. This includes the following aspects:

- Quality of build
- Durability
- Quality of vendor support
- Ease of maintenance
- Cost efficiency

This periodic review will result in a report to aid in transparency in decision-making.

PC Support—Software

The System Office facilitates purchase of selected computer software, including Microsoft Office Professional and Symantec Antivirus Enterprise Edition. Member libraries are encouraged to use TechSoup to acquire Microsoft licenses when possible, and the System Office maintains a copy of all licenses regardless of purchaser in order to support imaging of PCs. Antivirus protection for all PCs is purchased and coordinated centrally to ensure that PCs on the network are protected. A System staff member has been trained by Symantec on the use of the Antivirus program.

Network management

TrackIt! software is in use throughout the system to provide PC software and hardware auditing for software license compliance, network planning, technology inventory, and replacement planning information. The help desk features of TrackIt! provide efficiencies in reporting and tracking trouble tickets. Also, in use are PRTG for traffic and uptime monitoring as well as NEDI for hourly network port scans.

Management of public use computers is supported through recommended configurations, imaging of new PCs, consultation with local technical support personnel, and directly provided technical support. Print management services are provided through a system-wide purchase of Envisionware's LPT:One software, which is in use at most locations. Public computer time management is provided by Envisionware's PC reservation software among the members, with support by the System Office. System members work with SJVLS staff to create a locked-down public PC profile. The purpose is to ensure the security of computer hardware and the network.

Network Management Objective 1

Utilize the end-of-useful-life or end-of-maintenance dates in the device record of TrackIt!.

Network Management Objective 2

Ensure that existing equipment can be upgraded to the IOS needed to support emerging needs. This will be done by carrying out the following tasks:

Define router/switch IOS requirements in order to Verify that the equipment is upgraded.
Replace equipment as required. (Report)

Network Management Objective 3

Create policies & workflows that allows for the validation of system-level modifications by SJVLS Staff. This can be done by creating a new set of admin user groups so that any changes to the system services and software can be validated by the SJVLS SNSE.

Training

SJVLS is working to improve system-wide training. Regular training is planned for both PC support and automation activities. Specialized training is being sought for system staff, which can then share new skills with member libraries. Areas of interest include software, hardware and network support.

Training Objective1:

Update & Maintain relevant documentation on the SJVLS Intranet

Training Objective2:

Create an annual calendar of scheduled visits by SJVLS networking Staff

Training Objective3:

Organize an annual gathering of Networking Staff

Recommendations for future SJVLS Planning

Update Computer Systems Agreement & Establish Ownership of Equipment

Much of this work will be contingent upon establishing ownership of the networking equipment. In the original computer systems agreement that was drafted in April 1983

(https://sjvls.sharepoint.com/sites/TheSource/SitePages/COMPUTER-SYSTEM-AGREEMENT.aspx)

Ownership of the equipment was such that SJVLS were the owners of the Central Site Equipment and minimal remote site equipment.

It is the recommendation of the SJVLS IT Staff that a new computer systems agreement be drafted such that SJVLS will be the custodians of all routers & switches across the member library network. This will facilitate in future planning, maintenance & replacement of equipment. This cost should be considered in annual budgeting so that it not result in new or unexpected charges to member libraries.

Establish Policies regarding cooperation with non-library IT staff beyond buildings.

In 2007 a policy entitled Requirements for Provision of Service to Joint-Use Libraries by the San Joaquin Valley Library System was implemented that established

https://sjvls.sharepoint.com/sites/TheSource/SitePages/REQUIREMENTS-FOR-PROVISION-OF-SERVICE-TO-JOINT-USE-LIBRARIES-BY-SJVLS.aspx

It is the recommendation of SJVLS IT staff that this policy be reviewed & to reflect current circumstances and to continue being an effective policy. Having this policy updated will also allow us to clearly define the level of service that we are able to provide to all member library locations.

Review & implement levels of service policy

Previously SJVLS had established a policy relating to levels of service for technical support. https://sjvls.sharepoint.com/sites/TheSource/SitePages/provision-of-core-services-and-premium-services.aspx

Given changes in leadership & evolving needs, it is the recommendation of SJVLS IT staff that this policy be reviewed, updated (if necessary) & implemented. Doing so will help to understand service level expectations and provide equitable services for the entire network of libraries.

REVIEW AND EVALUATION

The Technology Plan and the Strategic Plan are to be reviewed annually as part of the budget development process. Based on available funding, anticipated staffing levels, and emerging priorities, specific projects identified in both plans are implemented, deferred, or set aside as no longer needed or not feasible in the foreseeable future.

Effectiveness of each project is assessed as appropriate through staff or public feedback, either directly to system staff or through member library customer feedback channels. Special projects and grantfunded initiatives have their own separate evaluation channels.
