DATE: December 16, 2022
TO: Administrative Council
SUBMITTED BY: Christopher Wymer, Administrative Librarian
SUBJECT: Retroactive Approval to Submit eBooks For All Grant Funding Application

RECOMMENDED ACTION:
1. Retroactively approve and authorize the Administrative Librarian to submit the application for the eBooks For All Funding Opportunity in the amount of $50,000.
2. Authorize the Administrative Librarian, or their designee, to accept the grant funds, if funds are awarded.

Approval of the recommended action will retroactively authorize the Administrative Librarian to apply for grant funds in the amount of $50,000 and allow the funds to be accepted if awarded.

ALTERNATIVE ACTION(S):
Do not authorize the funding application. SJVLS would not accept the funds, if awarded.

FISCAL IMPACT:
Approval of the recommended action will increase system revenues by $50,000. $10,000 from Online Materials that was intended to purchase titles for CloudLibrary will be used instead for the grant funding match requirement.

DISCUSSION:
The State Library made funding available for collection development of the Palace Project collection to interested libraries and library cooperatives. SJVLS submitted an application for $50,000 to purchase titles. The funding requires a 20% match, which would be met by using $10,000 from SJVLS's Online Materials budget.

**CALIFORNIA’S LSTA GOALS**
Goal 1: Equitable Access, Trusted Community Space

**PRIMARY AUDIENCE**
Adults, Families, Immigrants/Refugees, Intergenerational Groups (Excluding Families), Library Staff, Volunteers and/or Trustees, Low Income, Non/Limited English Speaking, People with Disabilities, People with Limited Functional Literacy, Pre-School Children, Rural Populations, School Age Children, Senior Citizens, Statewide Public, Suburban Populations, Unemployed, Urban Populations, Young Adults and Teens

**PROJECT INFORMATION**

**AGENCY INFORMATION**
The San Joaquin Valley Library System is a public library consortium located in the Central Valley of California. SJVLS’s mission includes encouraging collaboration to transform our communities through resource sharing and access to technology, including collaboration on the on-going development of SJVLS’s shared eBook and eAudiobook collection. The proposed project aligns with SJVLS’s mission by utilizing collaboration between our members, and content selectors from across the state, to help curate a well-rounded collection for the Palace Project.

**PROJECT DESCRIPTION**
SJVLS is a public library consortium located in the Central Valley of California. One of the resources we provide to our members is a shared eBook and eAudiobook collection through
CloudLibrary. Staff from our member libraries collaborate on the selection of titles for the collection, with each staff member having a primary purchasing focus such as: Young Adult titles, Adult Non-fiction, and foreign language titles. Utilizing this approach has allowed us to take advantage of staff expertise throughout the consortium to develop an online collection that meets our patron’s diverse backgrounds and needs.

This project aims to extend this collaborative collection development approach to help select titles for the Palace Project. SJVLS is requesting $50,000 in funding to purchase titles for the Palace Project. The grant funding will be matched with $10,000 from SJVLS’s E-Resources budget to comply with the match requirement. SJVLS selectors will select titles to add to Palace in their areas of expertise, with a goal of helping develop a diverse collection that reflects the diversity within our communities.

**BRIEF ABSTRACT**

SJVLS will participate in the selection of titles for the Palace Project with the goal of helping develop a collection that reflects the diversity within our communities.

**IMPACT TO DATE**

N/A

**COMMUNITY NEEDS, ASPIRATIONS, AND ASSETS**

SJVLS's service area contains a mix of urban and rural communities, and one of the common needs of both types is access to eContent. Over the last decade, demand for access to eBooks and eAudiobooks has steadily increased, and became more important during the COVID pandemic. In our rural areas, access to eContent provides isolated patrons with the ability to access educational or recreational titles to meet their needs, even if the patron is unable to visit a physical branch. In urban areas, many of our patrons have some form of an eReader, and are accustomed to being able to find eBook or eAudiobook versions of the titles they're interested in.

Purchasing titles for the Palace Project helps meet this community need by expanding the amount of eBooks and eAudiobooks available to our patrons. In addition, the ability of Palace to aggregate content from multiple eContent platforms like CloudLibrary and Bibliotheca will provide our patrons with access to their library’s full eContent offerings from a single interface. This should reduce confusion about availability of titles, and ensure all of our patrons can find material that meets their interests or information needs.

**COMMUNITY INVOLVEMENT**

SJVLS has mostly involved our community informally in program planning for eContent. Feedback is gathered through conversations with staff and patrons at our local branches and that feedback is then relayed to the Electronic Resources Committee, as well as reviewing usage statistics on a monthly basis. Recently SJVLS started soliciting more direct involvement from our patrons by enabling purchase suggestions within the system-wide CloudLibrary collection. This allows patrons to inform our selectors if a title of interest isn’t available in our collection, and then our selectors can add it to their next purchase.

We will involve our community in the implementation of the project through patron surveys to gather feedback on initial impressions of the collection, and the types of content they’re hoping to discover when they access the app. In addition, we will work with our members to
distribute signage announcing the Palace collection and our involvement in collection development.

**EQUITY, DIVERSITY, INCLUSION AND BELONGING**

SJVLS believes our physical and digital collections should reflect the diversity of the communities we serve, and patrons from any background should be able to find themselves represented in our collections. Access to a variety of educational and recreational material helps promote equity and inclusion in our communities by providing patrons with materials to assist them in learning new skills to advance their personal or career goals, and ensuring their points of view or interests are represented in the collection.

SJVLS will use these principles to guide our purchasing selections, and will review circulation, hold, and (if available) purchase request statistics to ensure the materials available in Palace are creating an equitable, diverse, and inclusive collection.

**PROJECT PARTNERS AND COMMUNITY CONNECTIONS**

**PROJECT INTENT**

Institutional Capacity: Add, improve or update a library function or operation to further its effectiveness

**PLANNING AND EVALUATION**

**ANTICIPATED PROJECT OUTPUTS**

Approximately 1,500 eBook/eAudiobook titles will be purchased (depending on licensing costs) with 4,500 checkouts.

**EVALUATION PLANS**

SJVLS aims to make a meaningful contribution to the success of the Palace Project by helping develop a well-rounded selection of materials. We will measure our success by analyzing purchase statistics, including intended audiences (Children's, YA, Adult) and both fiction and non-fiction titles. In addition to analyzing purchase statistics, we will track usage statistics to ensure the titles added to the collection are circulating, and make adjustments to the content we're purchasing, if needed.

**SUSTAINABILITY**

If this project is successful, SJVLS and our member libraries will support the project by marketing the resource to patrons, including providing links to and information about the Palace Project. We will also continue to allocate a portion of our e-resources budget to purchase titles through the Palace Marketplace and continue to contribute to the development of the statewide collection.

**PROJECT ACTIVITIES**

**ACTIVITIES**
Project activity will be the acquisition of digital materials. SJVLS will purchase eBook and eAudiobook licenses for the Palace Project. Selectors will aim to ensure that titles represent the diversity of residents and interests within California.

### INDIRECT COSTS
An indirect cost is the applicant’s incurred cost that cannot be readily isolated or identified with just one project or activity. These types of costs are often referred to as “overhead costs.” Typical examples of indirect costs are general telephone service, postage, office supplies, office space expenses, and administrative or financial operations for an entire organization. Applicants may choose to:
- Not request any indirect costs;
- Use a current approved indirect cost rate with a federal agency or one pending review to be approved by the project start date (applicants choosing this option must attach supporting documentation to application); or
- Use an indirect cost rate not to exceed 10% of modified total direct costs (MTDC). MTDC means all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and subcontracts up to the first $25,000 of each subcontract.

DATE: December 16, 2022
TO: Administrative Council
SUBMITTED BY: Chris Wymer, Administrative Librarian
SUBJECT: Approval to Execute PLSEP Grant and Accept Award

RECOMMENDED ACTION:

1. Approve the Administrative Librarian to submit the PLSEP Grant Application with budget details in the amount of $18,700.
2. Approve the Administrative Librarian to accept grant funds effective upon execution through September 30, 2023.
3. Authorize the Administrative Librarian, or their designee, to sign expenditure forms and activity reports for this agreement.

Approval of the recommended action will authorize the Administrative Librarian to file the grant paperwork to request the awarded funding, allow them to accept the funding when received, and authorize them to complete any expenditure and activity forms for this grant funding opportunity.

ALTERNATIVE ACTION(S):

Do not submit the PLSEP application. The students awarded funding would not be able to have their course costs covered.

FISCAL IMPACT:

There is no fiscal impact to SJVLS associated with the recommended actions. The $18,700 includes administrative costs for staff to administer the program.

DISCUSSION:

Three staff members from SJVLS member libraries were selected to receive grant funds to help cover the costs of obtaining an MLIS degree, in the amount of $17,000. The total grant funding requested will be $18,700 when the 10% administrative costs are included in the total. This year we had two students receive $7,500 in funding, and a third who received $2,000. Additionally, we have 4 students who were waitlisted in case additional funds become available.

CALIFORNIA’S LSTA GOALS

Goal 7: California libraries are staffed by a skilled and diverse workforce whose members engage in continuing education and leadership development opportunities, delivery high-quality library and information services, and effect positive change in their communities.

PRIMARY AUDIENCE

Library Staff, Volunteers, and/or Trustees

PROJECT INFORMATION

AGENCY INFORMATION - Describe how the proposed project aligns with your agency's mission, values, strategic plan, goals, and/or other activities. (Word count limit: 150)

Participation in PLSEP provides SJVLS’s member libraries with assistance developing and retaining library staff. These staff members use the knowledge and skills gained to develop and deliver innovative library services and programming, which enhances and enriches the communities they serve.

PROJECT DESCRIPTION - Provide a description that would enable the reader to comprehend the proposed project if they were to read only this response and no other portion of the application. Discuss what you will do, how you will do it, what you aim to achieve, why, and for whom.

SJVLS’s participation in PLSEP helps our member library staff pursue a master’s degree in Library and Information Science by providing scholarships to pay for the costs of a portion of their classes this academic year. Recruiting and retaining library staff can be difficult. PLSEP allows paraprofessional staff to pursue career advancement opportunities and allows our member libraries to recruit librarians from their existing staff. Staff retention is higher when
libraries can promote librarians from within their organization. It also helps encourage good morale among library staff if they know they have opportunities for career growth.

BRIEF ABSTRACT - Provide a brief statement which answers the questions: we will do what, for whom, for what expected benefit(s). Response must be limited to two (2) sentences.

The Public Library Staff Education Program is a tuition reimbursement program developed by the California State Library to improve library services to California’s diverse communities. To support the professional development of California public libraries, the cooperative library system provides public library staff with tuition reimbursement for courses required for a master’s degree in Library and Information Science.

IMPACT TO DATE - If this project has been supported with LSTA funds in the past, describe the project’s results and impact to date.

PLSEP has made a positive impact on SJVLS member libraries. Since fiscal year 2016-2017, PLSEP has provided more than $90,000 to fund 89 courses for 23 MLIS students. During the same period 5 students obtained their MLIS degrees.

COMMUNITY NEEDS, ASPIRATIONS AND ASSETS - Describe the community need(s) that this project is intended to meet, the community aspiration(s) with which it is intended to align, and the community assets that connect to the project. Also, briefly describe how your project will respond to your stated community needs and/or aspirations.

PLSEP funding helps meet local community needs by encouraging and supporting the development of professional library staff. Award recipients help with the development of library services and programming that have a meaningful impact on the communities they serve.

COMMUNITY INVOLVEMENT

N/A

EQUITY, DIVERSITY, INCLUSION AND BELONGING - Explain how the principles of equity, diversity, inclusion, and belonging have guided your project planning and how they will guide its implementation and evaluation.

PLSEP supports the principles of equity, diversity, inclusion and belonging by providing an opportunity for current paraprofessional library to pursue career advancement at a reduced cost. This supports equity within the profession by reducing the barrier to obtaining an advanced degree and helps cultivate diversity in library staff by developing the skills of library staff already living in and serving their communities. When library staff come from the communities they serve, it helps foster a sense of inclusion and belonging for library patrons.

PROJECT PARTNERS AND COMMUNITY CONNECTIONS

N/A

PROJECT INTENT

Institutional Capacity: Add, improve or update a library function or operation to further its effectiveness.

- Improve the library workforce
PLANNING AND EVALUATION

ANTICIPATED PROJECT OUTPUTS - List your anticipated project outputs. Be sure to include the number of people you anticipate will participate in and/or benefit from each activity, if applicable.

Based on fiscal year 2021-2022, SJVLS anticipates being able to provide funding for 2 students to take 2 courses each.

EVALUATION PLANS - Describe your plans for evaluating the impact of your project in response to your stated needs, beyond any LSTA-required outcome surveys.

SJVLS will evaluate the impact of PLSEP funding by collecting and reviewing student’s Final Narrative reports.

SUSTAINABILITY - State how you will sustain this project beyond the award end date if it is successful.

Presently, SJVLS does not have any plans to sustain PLSEP awards if the State Library’s funding ceases.

PROJECT ACTIVITIES

ACTIVITIES

PLSEP’s activity is “Instruction – Consultation/Drop-in/Referral.” Students will receive instruction via their MLIS coursework. At the conclusion of the funding period, students will supply a Final Program Narrative that discusses the skills and knowledge obtained in their coursework and how they will use those skills and knowledge in their libraries.

### Indirect Costs

An indirect cost is the applicant’s incurred cost that cannot be readily isolated or identified with just one project or activity. These types of costs are often referred to as “overhead costs.” Typical examples of indirect costs are general telephone service, postage, office supplies, office space expenses, and administrative or financial operations for an entire organization. Applicants may choose to:

- Not request any indirect costs;
- Use a current approved indirect cost rate with a federal agency or one pending review to be approved by the project start date (applicants choosing this option must attach supporting documentation to application); or
- Use an indirect cost rate not to exceed 10% of modified total direct costs (MTDC). MTDC means all direct salaries and wages, applicable fringe benefits, materials and supplies, services, travel, and subcontracts up to the first $25,000 of each subcontract.

### Indirect Costs Description

Admin costs includes admin/fiscal staff workspace, utilities, internet, IT support, office supplies and the use of equipment.
