SUBJECT: Web Services and SIP Migration

RECOMMENDED ACTION:

1. Authorize SJVLS staff to work with SirsiDynix to migrate Web Services and both SIP servers to new versions of Windows Server.

Approval of the recommended action will allow SJVLS staff to work with SirsiDynix to migrate Web Services and SIP instances to new servers at a cost of \$3,380.

ALTERNATIVE ACTION(S):

There are no viable alternative actions.

FISCAL IMPACT:

Approval of the recommended action will not increase membership dues. Funding for the project was already allocated in System Committed projects to support the goals identified in the Technology Plan. Migrating the other services will cost \$3,380 with no additional on-going costs. Windows Server licensing costs are still being researched and will be included in a separate project for the Technology Plan.

DISCUSSION:

Our current version of Windows Server goes end of life at the beginning of October. In order to continue to receive security updates SJVLS has to migrate these services to a newer version of Windows Server.
